

SVFAN Vent Kit

FOR 10" TUBULAR SKYLIGHT

QUIET AND POWERFUL

Exhaust Vent Add-on Kit

The Exhaust Vent Kit is a forceful exhaust system for the 10" tubular skylight. Capable of exhausting up to 125 cfm, it is enough to vent a bathroom and shower stall. The ingenious design disguises the intake vent in a sleek trim ring that incorporates the skylight diffuser. The vent is connected to a motor that is remotely located in your attic space, making it extremely quiet. The vent kit can also accommodate a light kit for evening lighting.

CEILING VENT

ADD-ON KIT

Exhaust Vent Kit

for 10" Tubular Skylight

The Vent Kit features a stylish light fixture with a streamlined, integrated intake which eliminates the need for traditional vent grates. It's perfect for bathrooms and laundry rooms to help remove moisture buildup.

Kit Includes:

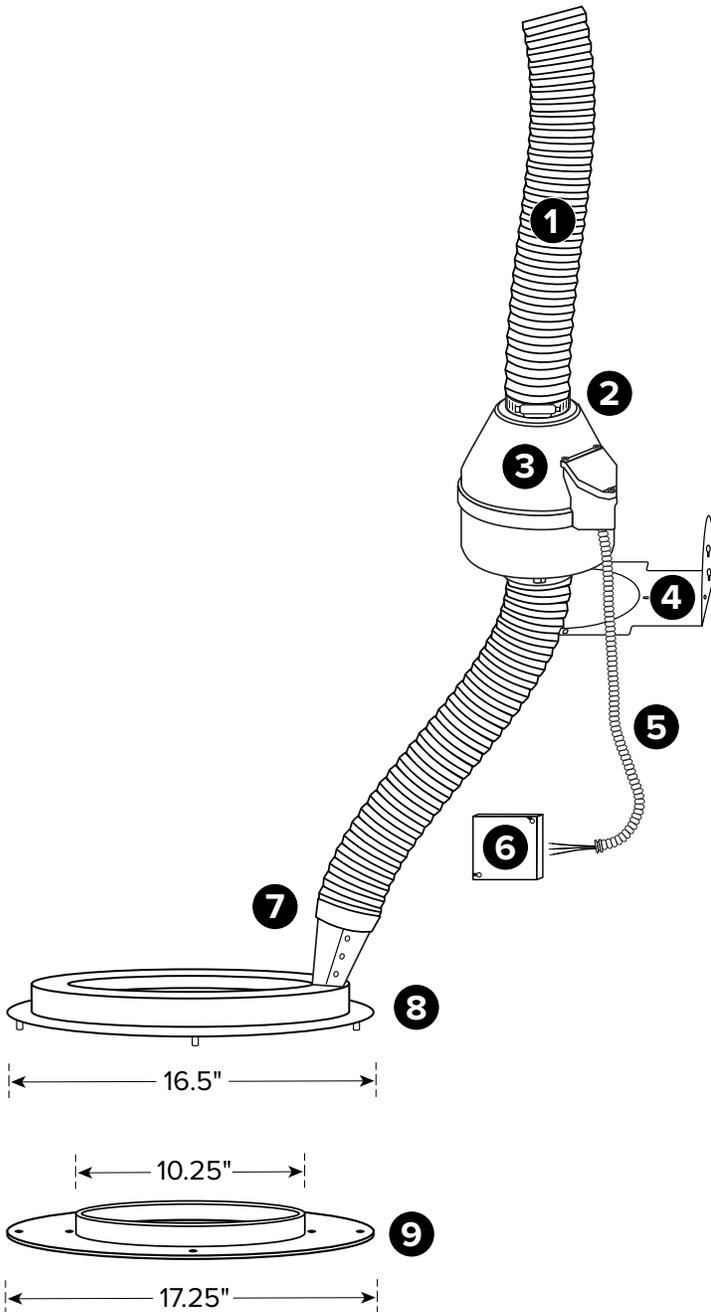

- Decorative Powder Coated Aluminum Trim Ring with Intake
- Ceiling Exhaust Cowling
- Quiet, High Performing Fan Motor – 125 cfm
- 4" Foil Duct Pipe – 8 Feet
- 5-Year Product Warranty
